My Projects

E-commerce Shopping Website

- Responsive Design: Utilized HTML, Bootstrap, and JavaScript to create a highly responsive and user-friendly e-commerce interface.
- Robust Backend Development: Implemented Django framework to backend tasks, including management and user authentications.
- E-commerce Features: Intfeatures such as adding items to cart, creating wishlists, and managing order statuses.
- Payment Gateway Integration: Ensured secure transactions by integrating a reliable payment gateway with secure connections.

Portfolio Website

- This is personal portfolio app created React js.It contains all information regarding me and my project.
- Technologies: Develop the site using React.js, JavaScript, HTML, and CSS to create a dynamic and professional portfolio.

Dynamic Calculator

- User-Friendly Interface: Design a clean and intuitive interface with HTML and CSS to make it easy for users to input values and understand the calculations
